FULL AND ERLIABLE GUIDE, BY A Rattury, Commenced and Bases, to the chief, formatterfalls, most chief, rivers, lakes, butting and darks and all control of the cont - LEAVINGS DEPAR Ter Howard.

We have some serious words to address to this gentleman, to which we crave his andivided attention. There has been a great cutery of late about "political parsonal" and "political presching," the "descration of the palpit, of the Sabbath and of the sacred office." We find it makes a very material difference whose bull it was that gored the ox. If the political of the parsons are of the right stamp, it makes a very material difference whose bull it was that gored the ox. If the politics of the parsons are to the right stamp, it makes very little difference where, when or how they are taught or enforced. It would be a very henloss offence in a free sell preaches to pray for the extinction of elavery, or to teach his flock to short the law of God before that of man. Our gentlemanly cotemporary, the fluss, cannot find investives or epithets oppositions enough to hurl at the heads of such unfortunate objects of its indignation. But you, Dr. Howard, and gentlemen of your politics, may pray that the slaves shall be kept in everant bondage—may reflerate that the children of Ham are accursed of God and pre-ordatical REMITTANCES BY TO Life and Fire Insurance Agency, Just Received.
